3. Currencies
Payment can be initiated only in Hungarian forint. Naturally, cards linked to a bank account kept in a currency other than forint can also be used for payment – that is, by any card suitable for purchases, issued by any bank in the world – thus not only by a forint-based bank card. Please consider that in such cases your bank can charge you extra conversion fees or execute the conversion on its own rate.

Conversion of fees determined in other currency than forint is calculated based on the daily exchange rate published on the web-page of the Central Bank of Hungary. (http://english.mnb.hu/)

4. Accepted bank cards
CIB Bank’s online payment system settles transactions performed by bank cards belonging to the MasterCard and Visa product families. Of the various bank cards suitable for making purchases, the following can be used for initiating transactions:

- MasterCard
- MasterCard Electronic
- Maestro
- VISA
- VISA Electron
