CEU Celebrates World Food Day 2014: Photo Exhibition and Information Session
Thursday October 16th, 12-2pm, CEU Laptop Area

The 2014 World Food Day theme - Family Farming: “Feeding the world, caring for the earth” - has been chosen to raise the profile of family farming and smallholder farmers. It focuses world attention on the significant role of family farming in eradicating hunger and poverty, providing food security and nutrition, improving livelihoods, managing natural resources, protecting the environment, and achieving sustainable development, in particular in rural areas.

On Thursday October 16th we invite you to attend a photo exhibition which portrays scenes from family farms, along with the unique atmosphere of markets in Budapest where citizens can purchase food directly from local producers. You will also get a chance to learn more about the challenges faced by small scale farmers, and the innovative solutions they have been coming up with to survive in such a physically challenging and competitive working environment.
