Announcement
ERASMUS Lifelong Learning Programme offers a Summer Course on European Health Law & Ethics

European countries are confronted with major health challenges that require a common approach (border crossing infectious diseases, mobility of patients, quality and safety of medical products, devices, data and patent protection, human rights, etc).
This course is designed to explain and examine European Union law and its relevance to EU member states, as well as the role of Council of Europe (CoE) human rights law in health care (informed consent, privacy, medical research, genetics, organ donation, etc).
The objectives of this course are to understand the concept of ‘European health law’, including its rationale, instruments and effectiveness. Therefore, the course will take a close look at several health (related) issues, such as public health, human rights issues in health care, free movement and patient/professional mobility. Both addressing the EU and CoE perspective.
Enrollment is open for students (law, medicine, health sciences, etc) registered at one of the five partner universities (total: max 35 persons).
Location: RIGA University, Latvia

Date: JUNE 17 - 28, 2013 (15 days)
Deadline registration: April 1, 2013 (submission course coordinator)
Students fee: no tuition
Travel and subsistence grant available for max. 5CEU students (15 days)
Course location:
Campus of the Riga University, Latvia
