

CEU HYDRATION STATION

💧💧💧💧 SMART HYDRATION MATTERS

REDUCE WASTE

78% of PET bottle waste in Hungary goes to the landfill or incinerator. Drinking tap water is a PET-free hydration option which reduces waste.

SAVE WATER

Save water with each sip :
It takes 1.39 to 3 liters of water to produce 1 liter of bottled water

PROMOTE HUMAN & ECOSYSTEM HEALTH

Drink toxic free from the tap:
The manufacture of PET requires the use of toxic materials and releases carcinogens into the environment.

MITIGATE CLIMATE CHANGE

Less Plastic, Less CO2:
For every ton of PET plastic used to make many bottled water containers, approximately 3 tons of carbon dioxide is produced
