To:

H.E. Réka Szemerényi, Ambassador of Hungary to the United States of America

Zoltán Balog, Minister of Human Capacities, Ministry of Human Capacities, Hungary

László Palkovics, Minister of State for Education, Ministry of Human Capacities, Hungary

Dear Ambassador Szemerényi, Minister Balog, and Minister Palkovics,

We are writing to express our dismay about the proposed legislation that would effectively end a 25-year history of scientific excellence in Budapest.

As an international body of psychologists, neuroscientists, and cognitive scientists, we can tell you that our colleagues at Central European University are among the most respected in the world. Their intellectual legacy has had a global impact. We believe any city should count itself fortunate to have such a renowned center of academic excellence in its midst.

The proposed legislation will make it effectively impossible for CEU to continue to occupy its current position as one of the foremost scientific institutions internationally. We respectfully ask that you preserve CEU's ability to act as a center of leadership and innovation in Hungary and the world by withdrawing this legislation.
