Official Statement of the HSE Academic Council

Dear colleagues,

At HSE, we are concerned that Central European University (CEU) may lose its license in the near future.

CEU's possible closure would be a devastating blow to academic life and one of the most important of human rights – freedom of access to knowledge.

It is our hope that CEU's administration will be able to find a way to continue the university's activities under the new amendments to laws governing higher education in Hungary.
