To Whom it May Concern:

I have been asked to provide a letter confirming the status of Central European University as a New York State Education Corporation and that Central European University conducts educational activities in New York State.

All colleges and universities in New York are members of The University of the State of New York. The University, an entity established in the New York State Constitution, encompasses all education in New York, public and private, from prekindergarten through post-doctoral. The New York State Board of Regents is responsible for the general supervision of all educational activities within the State, presiding over The University and the New York State Education Department.

Central European University was incorporated as a New York State Education Corporation, and a member of The University of the State of New York, by action of the New York State Board of Regents by the issuance of a provisional charter on July 24, 1992. The provisional charter was made absolute by action of the Board of Regents on September 20, 1996. The period for which such corporation was created is perpetual and no certificate or order of dissolution of such corporation has been filed or issued and such corporation is authorized to do business in the State of New York.

Central European University's charter includes the authority to award degrees and operate programs that lead to those degrees. Every program creditable toward a degree at an institution of higher education which is a member of The University of the State of New York must be registered by the New York State Commissioner of Education. The Inventory of Registered Programs (Inventory) lists each program registered to each institution of higher education that is a member of The University of the State of New York. The Inventory can be found on the New York State Education Department's website at: <http://www.nysed.gov/heds/IRPSL1.html> Programs registered to Central European University are included in the Inventory. Central European University has registered programs at its location in Hungary (H-1051 Budapest, Nador u. 9., Hungary), and at its location in Annandale-on-Hudson, New York, USA. Central European University conducts educational activities at its New York State location related to its registered Advanced Certificate program in Inequality Analysis; a program registered jointly with Bard College.

If additional information concerning Central European is needed please do not hesitate to contact me.

Sincerely,

A handwritten signature in cursive script that reads "Leslie E. Templeman".

Leslie E. Templeman, Director

c: Dr. Michael Ignatieff, President, Central European University
Dr. Liviu Matei, Provost, Central European University
