

Instruction concerning protective measures against COVID-19 in your dorm/Apartment

Protect yourself and others around you by informing yourself and taking appropriate measures. It is absolutely necessary to follow the instructions and recommendations of the local health authority, the instructions of the dormitory management and the instructions of CEU!

Prevent the spread of COVID – 19, be a respectful and proactive member of our community

- Wash your hands frequently and thoroughly (for at least 30 seconds). Use soap and water or an alcohol-based hand disinfectant.
- Keep a distance of at least 1.5 meters (better 2 meters) between you and all other persons.
- No group formation within the building, at any time of day or night, not even in the rooms.
- No guests in your room
- Depending on the risk level, the dormitory management decides on the use of the common areas for the benefit of the community - this is communicated by e-mail.
- The common kitchens are to be used only in compliance with the minimum distance and strict adherence to cleanliness (immediate cleaning of private utensils, regular ventilation or cooking with open/tilted windows). It is only allowed to use your own dishes.
- Parties and various festivities are still suspended due to the danger of infection and are therefore prohibited.
- Avoid touching your face (eyes, nose, mouth) with your hands.
- Keep mouth and nose covered with bent elbow when coughing or sneezing.
- If you have symptoms such as fever, cough, sore throat, loss of taste or difficulty breathing, or if you fear you may be ill, stay in your room and contact 1450 (Ministry of Health)
- If you have voluntarily or governmentally taken a COVID-19 test, we ask that you always communicate this via Email to your housing provider, covid-response@ceu.edu, the DoS office and your Department Coordinator and maintain quarantine in your room until the test results are received. Both POSITIVE and NEGATIVE test results must be communicated immediately to the above-mentioned Email addresses.
- If you have a valid separation certificate when you move in, you must present it immediately. We will gladly assist you with your quarantine.

Masks and written proof of your health

Masks can prevent the transmission of the virus by the wearer of the mask to other people. They do not provide complete protection against COVID-19 and should be used in addition to other measures such as safe distance and hand hygiene. Please follow our internal safety guidelines when moving in, depending on the current risk classification of your country of origin.
