

Dear Rector,

The Central European University is part of the Hungarian higher education system since the democratic transition. For us, it is both Hungarian and international, one of the leading academic institutions in the region. The proposed legislation seriously violates the integrity of academia, and affects us almost as much as the citizens of the CEU. We hope that ELTE and CEU can continue the academic cooperation in the future. Therefore, as professors, lecturers, researchers and staff members of the ELTE Faculty of Law and Political Sciences, we stand with you.

Best regards,
