Corona tests in gargle boxes

Free PCR tests are carried out in "gargle boxes". The result takes about 24 hours and is suitable as an entry test for body-related services and gastronomy.

You can retrieve your test result yourself using a 12-digit PIN code. You will receive the PIN code by SMS after the test has been completed. Alternatively, you can collect the result 24 hours after taking it in the gargle box where the test was carried out. The result is valid for 48 hours. You can also have your Green Passport certificate printed out on the spot.

The gargle boxes are open daily from 7am to 7pm. Registration is required. Appointments are made a maximum of 3 days in advance. Appointments can be booked online or by calling the health number 1450.

Please do not eat or brush your teeth two hours before your time slot. This could otherwise falsify the result. You should also not drink anything half an hour before the test.
