OPENING HOURS:
11:00 – 19:00 WEEKDAYS
12:00 – 18:00 WEEKENDS

The "Unissued Diplomas" Worldwide Exhibition Series uncovers the stories of Ukrainian students killed in the war. The exhibition features diplomas issued posthumously to students from Ukraine who were killed by the Russian aggression since February 24, 2022. They represent unfairly taken young lives whose dreams remained unfulfilled. Each diploma uncovers a personal story about an education, life goals, and changes in the past year of those who will never graduate. Some of the students sacrificed their studies and aspirations for the sake of their country, some died in the occupied territories, some became victims of Russian attacks on civil infrastructure. We created this exhibition to highlight the ongoing war, and the price people in Ukraine pay daily for their freedom.

The event is organized by a group of students of Central European University.
